Craft: you will need: Print off

Wax paper
Sharpie
Tape
Scissors

Print off leper boy craft. Cut out a piece of wax paper the same size as the print off. Place wax paper over the top of the boy. Tape it only to the top of the paper. You should be able to flip the wax paper back and forth. You or the children take a sharpie and draw on the wax paper. Give the little boy a frown and bandages. Once you are done, have the children see the difference between the sick boy and the healed boy by flipping the wax paper back-and-forth. The children can also color the print off itself if they would like.
